Hi Jamie,

Environmental review is separately initiated by the EQ-429. VDOT concurs with the NEPA Concurrence form. Per Environmental, since the locality is preparing your own NEPA document, the City will be required to submit the NEPA document and supporting data. Once the NEPA document and all supporting data are provided to VDOT Environmental, they will begin our review. Please let me know if you have any questions.

Regards,

Good afternoon Candra,

We received the 30% plan comments by email and also in ProjectWise, but I do not see a response to our NEPA concurrence. I also didn't see any Environmental comments in our 30% package. Should we be expecting those separately?

Thanks!
