

Local Roots, Global Reach
ISLE OF WIGHT
COUNTY, VIRGINIA
DEPARTMENT OF INSPECTIONS

Memorandum

Date: August 8, 2018
To: All Owners, Agents & Contractors
From: Arthur E. Berkley, CBO, CZA
Director of Inspections 
Subject: Final and Temporary Power Release Inspections

Please be advised effective September 1, 2018 we will no longer remove electrical service panel covers while performing the above referenced inspections.

It will be the responsibility of the electrical contractor, general contractor or the owner to make sure the cover is removed for the inspections and replaced prior to the equipment being energized. The panel cover must be available during the inspection, so the inspector can confirm proper circuit labeling.

As always, your cooperation and assistance in this matter will greatly reduce inspection times and inspection safety.
