The Honorable Mayor
Members of the Board of Trustees
and Management
Village of Woodridge, Illinois

In planning and performing our audit of the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Woodridge, Illinois (the Village) as of and for the year ended December 31, 2017, in accordance with auditing standards generally accepted in the United States of America, we considered the Village's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report is intended solely for the information and use of the Mayor, the Board of Trustees and the Management of the Village and is not intended to be and should not be used by anyone other than these specified parties.

Future Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued a number of pronouncements that will impact the Village in the future.

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments and replaces the requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as they relate to governments that provide benefits through OPEB plans administered as trusts or similar arrangements that meet certain criteria. Statement No. 75 requires governments providing defined benefit OPEB to recognize their long-term obligation for OPEB as a liability for the first time, and to more comprehensively and comparably measure the annual costs of OPEB benefits. The Statement also enhances accountability and transparency through revised and new note disclosures and required supplementary information (RSI). The provisions in Statement No. 75 are effective for the fiscal year ending December 31, 2018.

GASB Statement No. 81, *Irrevocable Split-Interest Agreements*, provides recognition and measurement guidance for situations in which a government is a beneficiary of a split-interest agreement. The requirements of this statement are effective for the fiscal year ending December 31, 2018.

GASB Statement No. 82, *Pension Issues - an Amendment of GASB Statements No. 67, No. 68, and No. 73*, addresses issues regarding (1) the presentation of payroll-related measures in the required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The requirements of this standard are effective for the fiscal years ending December 31, 2017 and 2018.

GASB Statement No. 83, *Certain Asset Retirement Obligations*, addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The requirements of this standard are effective for the fiscal year ending December 31, 2019.

GASB Statement No. 84, *Fiduciary Activities*, establishes criteria for identifying fiduciary activities. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. The requirements of this standard are effective for the fiscal year ending December 31, 2019.

OTHER COMMENTS (Continued)

Future Accounting Pronouncements (Continued)

GASB Statement No 85, *Omnibus 2017*, addresses a number of issues across a spectrum of topics including issues related to blending component units where the primary government is a business type activity that reports basic financial statements in a single column, accounting for goodwill, fair value measurement and application related to real estate held by insurance activities and measuring certain investments at cost or amortized cost, and various issues related to accounting and reporting for postemployment benefits (pensions and other postemployment benefits [OPEB]). Statement No 85 is effective for fiscal years ending December 31, 2019, early application is allowed and encouraged.

GASB Statement No. 86, *Certain Debt Extinguishment Issues*, was issued to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also addresses accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. Statement No. 86 is effective for the fiscal year ending December 31, 2018.

GASB Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for the fiscal year December 31, 2020.
